

Your Weekly Wardrobe Jazz

Eyebrow Tips

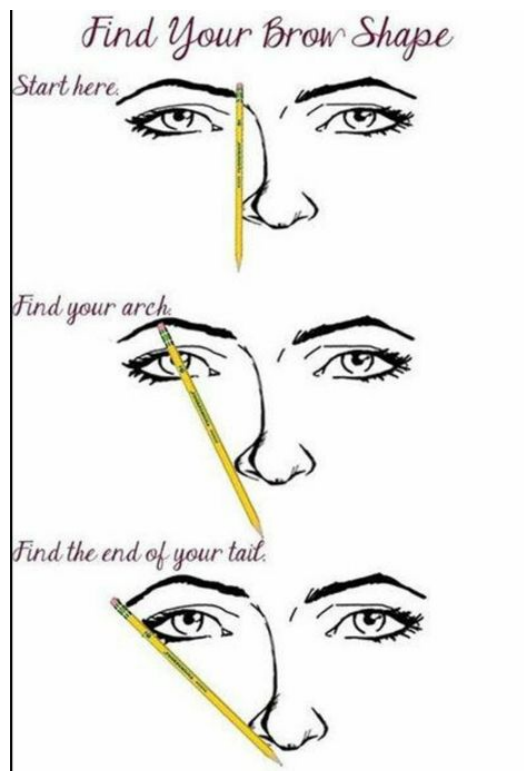

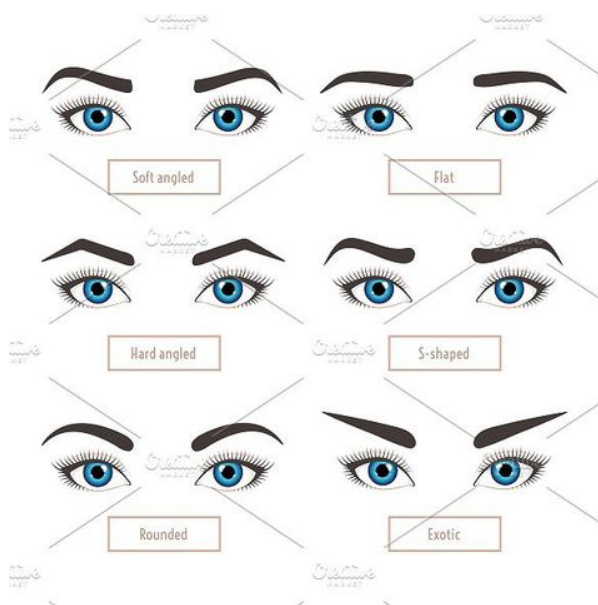

Eyebrows change everything when it comes to doing your makeup or deciding to do without it. Great eyebrows can be yours too. Check out last week's blog or enjoy the eyebrow lesson below.

- 1) Eyebrows are as unique as you are. There is no perfect shape.
- 2) Eyebrows are sisters, not twins. No one's left and right eyebrows are exactly the same.
- 3) The best color for your eyebrows is usually a few shades lighter than your hair.
- 4) If your hair has turned white or light grey, the best color for your eyebrows will be a few shades darker than your hair, usually a taupe or even medium grey.
- 5) Pluck your brows from underneath, never from the top.
- 6) If you do your brows and add lipstick, that's often enough to make you presentable for the day.

Here are my favorite eyebrow Tips and Tricks. Enjoy!

Eyebrow shaping should be done to follow and enhance your natural eyebrow shape. If you try to make your eyebrows into a different shape they will look positively bizarre!

Experiment with pencils, gels, and brow mascara which comes in many colors, including clear if you are fortunate enough to have dark brows. Here are some that work well: [BlinC](#), [Color Me Beautiful](#), and [Dior](#).

Great style has no size, age, or price tag!
